Andika Rizki Ramdani, Frontend Developer

Cimahi, West Java 40513, Indonesia, +62 852-1580-1724, andika15ramdani@gmail.com

ABOUT ME

I am a Frontend Developer and UI Craftsman dedicated to building fast, responsive, and intuitive web applications. To me, UI engineering is more than just writing code, it's the art of fine tuning every interface detail to deliver the best possible user experience.

English

EDUCATION

Jul 2017 — Jun 2020 | Software Engineering, SMK Negeri 2 Cimahi | Cimahi, ID

PROFESSIONAL SUMMARY

I am a Frontend Engineer and UI Craftsman focused on translating Figma design systems into pixel-perfect and high-performance applications. With experience progressing from template customization to architecting SaaS component libraries and managing real-time video/state engines, I treat interfaces as high-precision instruments built for complete visual uniformity.

EMPLOYMENT HISTORY

Oct 2023 — Sept 2026 | Front-end Developer, Aestech Teknologi Indonesia | Bandung, ID

- Frontend Developer focused on design system engineering and B2B clinical SaaS architecture.
- Converted complex corporate Figma specifications into a zero-redundancy, production-ready Vue.js 3 component library.
- Synchronized design tokens and TailwindCSS variables to enforce 100% visual and layout consistency across healthcare forms and data tables.
- Eliminated UI/UX component drift and accelerated delivery timelines for new feature deployments.

Nov 2021 — Oct 2023 | Front-end Developer, Jumpa Daring Indonesia | Bandung, ID

- Frontend Developer handling complex client-side state and real-time streaming interfaces.
- Built multi-participant video conference interfaces in Vue.js and wrapped them into Electron.js desktop containers.

- Developed declarative UI screens in SwiftUI, adhering to Apple standards.
- Wired real-time event listeners and managed app publishing pipelines directly to Apple Store Connect.

Jul 2019 — Sept 2019 | IT Support Intern, Kelurahan Kebon Jeruk Office, Kecamatan Andir, Kota Bandung | Bandung, ID

- IT Support & Developer Intern handling public administration workflow automation.
- Digitized physical paper document filing into automated queue tracking portals for local public services.
- Built administrative request forms and tracking dashboards using CodeIgniter, PHP, Bootstrap, and MySQL.

ADDITIONAL EXPERIENCE

Jun 2020 — Nov 2021 | Software Developer | Part-time | Bandung, ID

- Software Developer operating in a client-driven freelance environment.
- Implemented unified interfaces and chat screens using Dart and Flutter across iOS, Android, and Web.
- Translated custom client requirements into responsive web and mobile layouts using Laravel, Bootstrap, and TailwindCSS.
- Shifted focus from basic functional builds to strict visual accuracy and cross-device interface consistency.
